

## *Happy New Year!*

Thank all of you who have helped to make our 10th anniversary year a success and allowed us to reach our goal of raising \$25,000, so that we can give out again next year, 10 summer fellowships to bright, motivated college students interested in neuroscience.

The goal of the Fellowship Program is to attract these brilliant young minds, to add to the work of the senior scientists towards treatments and cures for serious brain diseases and conditions, such as: Alzheimer's, Parkinson's, ALS, Stroke, Brain Cancer, MS, Epilepsy, Schizophrenia, Autism, Traumatic Brain Injury (concussion, etc.), PTSD, Addiction, Pain, Depression, etc.

*Whether you donated money, time, merchandise, services or helped us spread the word about Irene & Eric Simon (IES) Brain Research Foundation and events... we appreciate it!!!!*

**You will receive shortly, a newsletter with highlights or our 10th Anniversary year and events to come this year. We hope you will take a few minutes to read it and help any way you can during this year.**

**We wish you and your family a very happy, healthy and prosperous New Year!**

**Sincerely,**

**IES Brain Research Foundation**
